

A terminal window titled "Terminal" with a dark background. The window shows a series of commands and their output. The user has created a file named "num.sh", made it executable, and then run it. The script prompts for a number, and the user has entered "2". The script then outputs a list of multiplication facts from 1 to 10 for the number 2.

```
[mca@localhost ~]$ vi num.sh
[mca@localhost ~]$ chmod +x num.sh
[mca@localhost ~]$ ./num.sh
enter a number : 2
x 1 = 2
x 2 = 4
x 3 = 6
x 4 = 8
x 5 = 10
x 6 = 12
x 7 = 14
x 8 = 16
x 9 = 18
x 10 = 20
[mca@localhost ~]$
```
